

April 9, 2008

Paramount Energy Operating Corporation (PEOC), an aggressive, growth oriented natural resource company have an immediate opening for a **FIELD CORROSION TECHNICIAN**. This position will be field based (location flexible) reporting to the Integrity Coordinator in our Calgary Office.

In consultation with the Integrity Coordinator, your primary responsibilities will be to oversee and evaluate the performance and effectiveness of PEOC's ongoing pressure equipment and pipeline integrity management and inspection programs to prevent loss and ensure regulatory compliance is maintained. You will provide day-to-day operational and troubleshooting support to field personnel on integrity matters related to corrosion mitigation and monitoring programs, pigging, cathodic protection and field sampling results. Working with the Operations group and vendors, you will assist in optimizing pressure equipment and pipeline inspection programs, coordinate and attend field audits with regulatory authorities and assist in the development of the risk assessment program.

Your minimum five years' experience in a field operations assignment with exposure to pressure equipment and pipeline corrosion mitigation and inspection programs make you an ideal candidate. Familiarity with ABSA (OUIP) and ERCB (Directives 64 and 66) regulations related to pressure equipment and pipeline integrity management requirements and a tradesman background in welding or pipefitting would be an asset. You possess good analytical skills with an attention for detail and are a self starter with a desire to expand your practical operations knowledge in a technical support role.

Interested applicants are invited to submit their resume before April 25, 2008 to:

Paramount Energy Operating Corporation

3200, 605 – 5th Avenue S.W.
