

April 28, 2008

Paramount Energy Operating Corporation (PEOC), an aggressive, growth oriented natural resource company have an immediate opening for a **SENIOR REGULATORY TECHNOLOGIST** to join our Calgary Office.

Your primary responsibilities will involve preparing facility and pipeline regulatory applications and audit packages for construction and maintenance projects. You will also compile and submit license amendments on behalf of the Operations and Equipment Integrity groups to ensure all facility and pipeline licensing is accurate and in compliance with the regulations. This individual will provide guidance and direction internally on the interpretation and application of facility and pipeline regulations and will act as the primary company contact with the regulatory authorities on facility and pipeline regulatory matters including enforcement action investigation and response.

Your minimum ten years' experience working with ERCB Directive 56 and associated facility and pipeline regulations combined with your knowledge of facilities/pipeline design/operation and supported by relevant post secondary education make you an ideal candidate. Established, mature working relations with regulatory authorities and an understanding of SER regulatory requirements would be an asset. You possess excellent technical, interpersonal and analytical skills. You are a self starter and thrive in a fast paced, dynamic work environment.

Interested applicants are invited to submit their resume before May 16, 2008 to:
